

Flexibility in thoughts and action

The Turm der Ideen is here for you to discuss, write, pin and think. Two working areas offer space to evolve: individually designed, they allow you to work standing up or seated. Keep all essential points in sight with 12 sqm of wall space and let the bright group space illuminate the mind. The window seat becomes a thinker's bunk and allows you to let your thoughts wander with a 270° view from the castle tower.

Recommended for

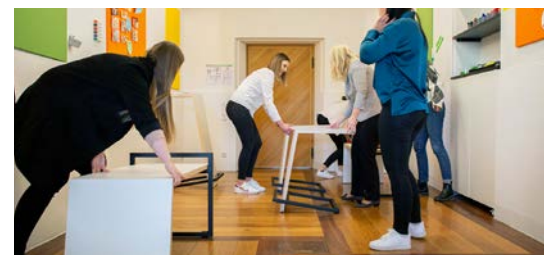

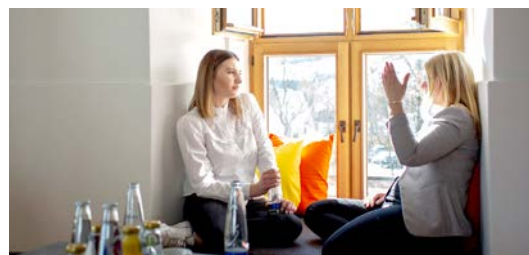

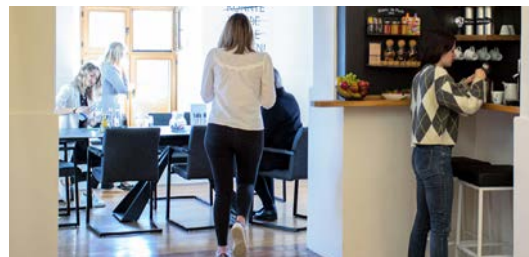

Creative seminars, human resource development and coaching
